## **Utilities Commission, City of New Smyrna Beach Wins FMEA Community Service Award**

**(Tallahassee, Fla.)** – The Florida Municipal Electric Association (FMEA) recently honored the community service efforts of the Utilities Commission staff by recognizing the municipal electric utility with the 2010 Community Service Award.

Honored during a ceremony on September 15 at FMEA’s annual Utility Education Day in Gainesville, Fla., UCNSB received the award for its commitment to enhancing its customers’ quality of life through community improvement programs such as the “We Care” program, free energy audits, and the water-wise demonstration garden.

“Being a part of the community is about more than making sure the lights are on,” said FMEA Executive Director Barry Moline. “The recipients of the 2010 FMEA Community Service Awards excel in not only taking an interest in seeing their communities succeed, but also actively work toward making them better places to live.”

**About FMEA:** The Florida Municipal Electric Association (FMEA) represents the unified interests of 34 public power communities across the state, which provide electricity to more than 3 million of Florida’s residential and business consumers.
