

Weatherization Assistance Program

The mission of the program is to reduce the monthly energy burden on low-income households by improving the energy efficiency of the home. This is a federally-funded program.

The types of assistance provided, include, in order of priority (the extent of services to be provided depends on available funding; each home will receive health and safety measures):

- Address air infiltration with weather stripping, caulking, thresholds, minor repairs to walls, ceilings, floors, and window and door replacement
- Installation of attic insulation
- Installation of solar window screens
- Installation of smart thermostats
- Energy efficient lighting
- Seal and insulate ducts
- Replace inefficient refrigerators
- Repair or replace inefficient heating/cooling systems

Weatherization Assistance Program

Weatherization Assistance Program
