RE: ITB 10-19 Annual Asphalt Contract ADDENDUM **No. 1**

To prospective vendors:

The Utilities Commission is issuing the following addendum. **As such it becomes an integral part of the proposal and must be acknowledged by the return of this signed form, with your proposal form, acknowledging receipt of the addendum.**

The following questions have been asked and are answered below:

1 Q: Good morning, would the City consider bidding FDOT Micro Surfacing DEV 335 to be used as needed and in conjunction with their traditional resurfacing methods? At 30-50% less than asphalt overlays, it would allow the city to extend their budget while maintaining a higher level of service. If considered, the specification can be found on the State's website: <http://www.fdot.gov/programmanagement/OtherFDOTLinks/Developmental/Default.shtm>

1 A: **I do not recommend using a product listed on the FDOT's developmental specifications website for this project. Products, materials, etc. that appear in the developmental specifications are new and approved for limited use.**

A Copy of This Signed Form Must Accompany Your Proposal
