RE: ITB 10-20 Lawn & Landscaping Annual Contract  
ADDENDUM **No. 2**

To prospective vendors:

The Utilities Commission is issuing the following addendum. **As such it becomes an integral part of the proposal and must be acknowledged by the return of this signed form, with your proposal form, acknowledging receipt of the addendum.**

1. is hourly rate okay for Initial and any additional mowing needed or do you want a price set? **We have added a line for hourly rate for initial cutting of Transmission lines on the attached tab sheet. Please return tab sheet with bid submittal.**
2. For the transmission mowing, at what diameter trees/saplings are we to cut as under brush? **2" & under is sufficient for underbrush cutting**
3. What is the width of the easement or is it current grass only. **ROW Widths are as follows. Field Street to Smyrna sub is 100' +/- . Airport Sub to Mooneyham is 36'. Mooneyham to Pioneer Trail is 70'.Cassadaga line is 70'.**
4. I took this weekend to go over the contact, and found no requirements for utility line clearance certificates. I know Transmission poles are considered non-conducting. There is always a chance of a ground bond or down guys being live. Is there or will there be a required LCC for the contract. **No additional certificates will be required for cutting of these areas. Contractor is not expected to be within 10' of energized lines.**
5. What is the dollar amount of the current contract? **Approximately \$40,000.00 with no Transmission Line cutting**
6. With the exception of the transmission lines and addenda is the scope of the current contract the same as the ITB. **We did remove two small Lift stations sites from the prior scope as well as the additional of the Transmission Lines.**

**200 Canal Street**  
**P.O. Box 100**  
**New Smyrna Beach, Fl. 32170-010**

7. Is the use of herbicide permitted on the transmission line poles, if so what products are approved? **the use of weed killer around transmission line poles is fine except in any areas where cattle or livestock are**
8. What is the minimum distance past the transmission line poles to be serviced? **See above for ROW Widths to be maintained.**

***A Copy of This Signed Form Must Accompany Your Proposal***

**Acknowledgment of Receipt of Addenda No. 2**
