RE: RFP 6-20 Safety Consulting Services
ADDENDUM No. 1

To prospective vendors:

The Utilities Commission is issuing the following addendum. **As such it becomes an integral part of the proposal and must be acknowledged by the return of this signed form, with your proposal form, acknowledging receipt of the addendum.**

1) My company can certainly perform all parts of the audit with the exception of Water and Waste Water. Not sure if I should submit the bid at this point….The scope of all (of our) audits and investigations focuses on Electrical Systems Safe Work Practices. Very little has been covering Water and Waste Water. I would be more than happy to bid on Electrical and all other OSHA related issued, Work Rules and Safety Manuals. .

   *While we cannot advise you whether to submit a bid; our scope states “Consultant shall be experienced in both the water and electric utility industry.”*

2) You list CPR and AED as part of it. I am the Philips Authorized Distributor for the area. I have done hundreds of AED In-Services for organizations…I can bid on the AED In-Service part of this bid, if you would like that.

   *CPR and AED are not listed in our scope of work.*

3) Are you allowing non-USA companies to bid on this job?

   *If the consultant is authorized to work in the USA and The State of Florida UCNSB would not prevent the consultant from bidding.*
A Copy of This Signed Form Must Accompany Your Proposal

Acknowledgment of Receipt of Addenda No. 1
