RE: RFQ 20-581 Sewer Cleaning Field St Capacitor Bank

To prospective vendors:

The following questions were asked, and I wanted to address them for all.

1. Will all of the reinstated lateral connections need to be grouted or sealed? (see Section 02740 Cured-in-Place (CIPP Specification; Section A, Item 5) **YES**
2. Does the Owner have a location for the disposal of any debris removed from the lines during the cleaning process? **YES**
3. Is a Bid Bond required for this project? **NO**
